

# Practical skills Magdalena

Forest school leader level 3, Crete, April, 2025

# Using and maintenance : bow saw

Things to consider:  
glove on the non - tool  
hand, establish rhythm ,  
be stable, cleaning with  
cloth and oil, close in  
appropriate way

# Playing with the axe in a safe way:)

things to consider: glove on the on - tool hand, stable position, wait for command when work in pairs; maintenance: clean with clove, never leave unattended;

Here we build our waterproof shelter , it was a great team - building

to consider: don't put rope on your neck, use the knots we learned and other smart knots , safety sweep at the place where we will build before we start.

Around the fire : fire square, stable position, fire glove ;

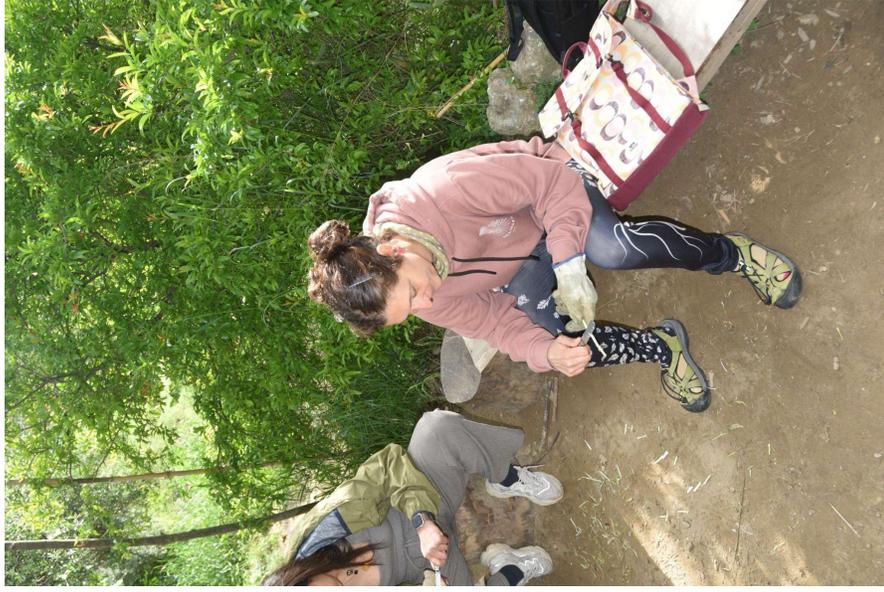

**Knots: reef knot, hatch clove and square knot - so glad to know them, in use already :)**

Kelly kettle delight: lip to lip before you sip :)

**Pen knife** : always keep closed and in pocket or with the other tools,  
glove on on - tool hand, cleaning with sand paper; before to start with pen knives  
- potato peelers first.

**loppers:** stable position, use the ground , clean with cloth and store with the other instruments, never leave on the ground.

Many thanks for this experience once more! Let me know if i missed something :)
